

## THE **ONLY** SELF-POWERED PAY-AS-YOU-DRIVE INSURANCE SOLUTIONS

PayGo Systems, a telematics service provider (TSP), develops, manufactures, markets and supports a line of self-powered, turnkey pay-as-you-drive (PAYD) / usage-based-insurance (UBI) solutions that are totally independent of all vehicle systems. All our solutions use driver-installed devices pressed onto the windshield.

The PayGo solutions enable true usage-based auto insurance and are accompanied by a myriad of real-time life-saving, service and policy enforcement notifications.

Our enhanced product line offers PAYD/UBI solutions for cars, buses and trucks, and for light, average and heavy-duty applications.

### Data collected:

(pick & choose)

- Distance
- Minutes of use
- Time and date of use
- Driving zone (state, county, city, etc.)

### Real-time notifications:

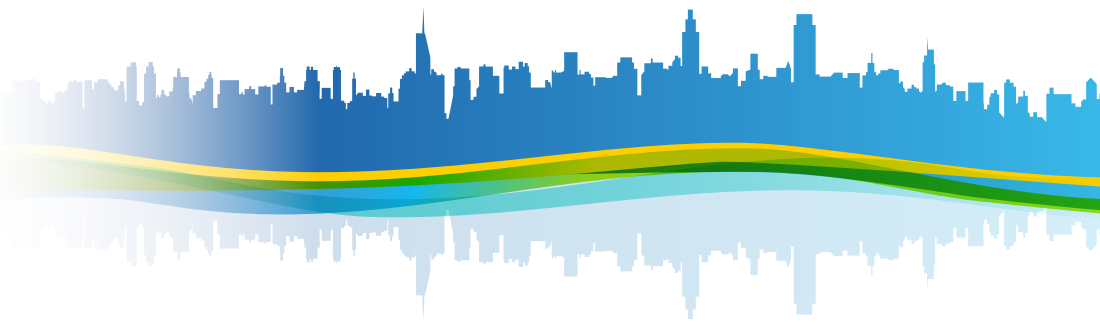

- Crashes (with location)
- Curfew violations
